## VOLUNTEERING

**Dev/Mission**, San Francisco, CA **August 2018 - Present**

*Volunteer*

- Colead students from San Francisco's Bayview district by teaching STEM related subjects such as coding fundamentals and building robotics using an Arduino.
- Prepared pre-installed coding programs to provide an efficient demonstration during coding lessons.
- Assembled all laptop connectivity using Window 10 to ensure all computers are set up for instructors before lesson demonstration.
- Recorded student attendance through Google sheets and documented classroom performance.

## EXPERIENCES

**Wah Mei School**, San Francisco, CA **August 2019-Present**

*Program Assistant*

- Managed 25 Kindergarteners and 1st graders in a before and after school program at Alice Fong Yu Elementary school.
- Organized activities to enhance children's emotional, physical, and social growth.
- Collaborated with program leaders and assistants to ensure a warm, nurturing, and fun atmosphere on building meaningful relationships with students.

**Dev/Mission**, San Francisco, CA **May 2018-August 2018**

*Student*

- Committed more than 140+ hours in learning HTML, CSS, JavaScript, and IoT (Internet of Things) in 3 months.
- Created a personal website using HTML and CSS from scratch and fetched onto Github.
- Performed team building activities such as communicate effectively with other students and actively caring for my team member's needs.
